○ No stockouts ● Number of months with stockouts

There has been a tremendous reduction in stockouts of essential life-saving commodities in health facilities between January 2016 and June 2017.

We therefore request the Lagos State Ministry of Health and its agencies to sustain this good progress and ensure 100% stock of essential life-saving commodities in all public health facilities offering maternal and child health services in Lagos State.

mamaye.org.ng

Produced by the Lagos State Accountability Mechanism for Maternal and Newborn Health (LASAM) in September 2017, with support from MamaYe-Evidence for Action.
