Data source - DHIS 2.0

## MAMA YE ASKS YOU

### State Governor and Cabinet

Ensure judicious utilization of allocated resources for improved health of your citizens, adopt a health facility and provide 2 hour supervision at least once in every month.

### Executive Secretary Bauchi State Agency for the Control of HIV/AIDS, Tuberculosis, Leprosy and Malaria

Ensure availability of antimalarial drugs at health facilities for pregnant women 24hours/7 days a week.

### Policy Makers

Organise periodic town hall meetings to address constituents' concerns around seeking healthcare services, especially pregnant women who should go for antenatal care and be delivered of their pregnancies with skilled birth attendants in the health facilities.

### Ward Development Committees, Community Based Organisations

Organise periodic town hall meetings with community members and health providers in your wards to address factors militating quality of healthcare services for pregnant women.

### Pregnant Women, Women of Child Bearing Age

Every pregnancy is a risk. Ensure going for your antenatal booking before your pregnancy reaches 20 weeks and follow up with antenatal checkups before delivery in the facility. This guarantees you good chance of normal and safe delivery.
